PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer with nearly 2 years of experience in building and deploying scalable web applications. Proficient in the MERN stack. Adept at developing efficient back-end architectures and intuitive front-end interfaces. Passionate about leveraging modern technologies to create impactful solutions.

EDUCATION

Bachelor of Software Engineer, (CGPA 3.78)

National University of Modern Languages, Islamabad

Intermediate in Pre-Engineering, (Marks 78%)

Punjab College for Information Technology, Rawalpindi

Matriculation in Science, (Marks 87%)

Siddeeq Public School, Rawalpindi

SKILLS

Front-End: HTML/CSS, JavaScript, React.js, Tailwind CSS, Redux

Back-End: Node.js, Express.js

Databases: MongoDB, MySQL, Firebase

Others: RESTful APIs, WebSockets, Git

EXPERIENCE

React.js Developer – Internship

Mawakay

- Completed a React.js internship at Mawakay (July 2024 – September 2024), where I developed and maintained web applications using React.js. Responsibilities included designing and implementing user-friendly, responsive websites, enhancing user experience, and optimizing performance.

PROJECTS

SoftHome POS. Built a full-stack MERN POS application with features like invoicing, payroll, commission tracking, employees and vendors. Integrated MongoDB transactions, role-based access control, and dynamic ledger reconciliation.

ChatStop. Built a real-time chat app using the MERN stack with JWT authentication and Socket.io for instant messaging. Designed a responsive UI with React, managed state with Redux, and developed a RESTful API with Express.js and MongoDB.

Coin Nest App. Developed a Crypto app using React.js and Coinranking API, implementing state management with Redux Query for efficient data handling and real time updates.

Store App. Developed a Full Stack store using MERN, featuring robust functionalities to add, update or delete items from the store and also includes a shopping cart allowing users to manage their products efficiently.

Certifications / Challenges

- Meta Front-End Developer by Meta on Coursera
- Programming with Javascript
